MESSAGE

It gives me immense Pleasure to learn that Mines Safety Association Karnataka (MSAK) has celebrated Mines Safety Week celebrations in all its 4 Zones from 12th November, 2018. I am happy to note that a Souvenir would be released to commemorate the occasion of Final Day function.

I believe that Safety Week Observed in the right spirit will result in improved health and safety awareness leading to improved quality of life and ultimately improved productivity These Programmes are useful and effective tools of education, providing opportunities for learning from each others which also provide a forum for review and interaction on safety consciousness by experts from various fields from different organizations.

I extend my good wishes for the success of the Mines Safety celebrations and for safe and productive working of the mines.

M E S S A G E

I am glad to learn that Mines Safety Association of Karnataka is organizing "Mines Safety Week" observance in all its 4 Zones from 12th November, 2018 and its Karnataka State Level Function is being organized at Hosapet on 23rd December, 2018. A souvenir is being released on this Occasion.

Safety may be termed as loss control management which is required at every steps of life and more so in working places in general and mines in particular. Observing safety weeks have proven track record of procurement of safety knowledge by worker, awareness of safe working places and practices with supervisors and providing of safe working environment, supervision etc. Accident scenario in mines has considerably been reduced during the decade. This has been achieved with the constant effort of workmen, management trade unions and regulatory bodies. To decrease the accident rate further, latest safety management, techniques need to be adopted such as risk assessment and its management, adoption of safe operating procedures for different operations of mines, providing adequate training to the workmen and supervisors. Encouragement of reporting of near-miss incidences, strict implementation of PPEs and implementation of safety management plan will go long way to achieve the objective of 'Zero harm' at working places. Observance of safety week is one such event to propagate knowledge of safety at different levels.

On this occasion, let us all re-dedicate ourselves for the cause of mines safety, health and welfare of all persons involved in it.

I wish the organizers all success in their endeavour.

MESSAGE

It gives me immense pleasure to give message when “Mines Safety Association Karnataka (R)” is bringing out a Souvenir during the Safety Week of 2018.

Mining is a risky industry and it is vital to all other Industries. Thus safety is very important aspect. Any sort of carelessness, both on the part of employer or employee would always invite danger and loss/damage to the mine and mine management. More than 80% percent of the accidents are occurring due to un-safe acts and it can be reduced ONLY AND ONLY by GOOD TRAINING. This goal cannot be achieved unless the GVTS are located near to the mines. With this motto, with the close follow-up of this office with the support from the DDG(SZ) Shri Utpal Saha a new GVTC started at Hosur on 12th October, 2018 in record time of about three months. Thus, I request all the owners of Krishnagiri district of Tamil Nadu state and the mines surrounding Bengaluru City should take advantage of this GVTC and get their workpersons trained immediately.

As such, I am sure, celebrating mines safety week would therefore spread awareness about safety to all the mine workers, supervisors and officials and also creates safety consciousness in the minds of both, the employees and employer (Mine Owner). The goal on safety can be easily achieved by framing and following a reviewable ‘Safety Management Plan’ which is likely to become law early.

I also take this opportunity to greet every one a Happy & Prosperous New Year 2019 and to achieve Zero harm in their mines.

M E S S A G E

It gives me immense pleasure to learn that Mines Safety Association Karnataka (MSAK) is organizing 'Mines Safety Week' in all its four Zones in the month of Nov-Dec 2018 and also publishing a souvenir on the occasion in the State final day function being hosted by M/s VESCO, 23rd December, 2018.

The activities of MSAK within state of Andhra Pradesh and Karnataka, holds a major chunk of the country's mineral wealth, with the occurrence of a variety of minerals/ore the production of which contribute enormously to the national exchequer. The mining activity in this region comes from organized and unorganized sector covering manual to mechanized mines. In order to sustain and accelerate further the objectives of large-scale economic development of this region, equal thrust needs to be put on to welfare, health and safety of persons employed in the mines. It is therefore, very essential that safety education and safety consciousness amongst all those engaged in this profession, gets its due attention.

Celebrating Mines Safety Week is one such an occasion that provides an opportunity of promoting safety awareness amongst the workers, officials and their family members and provides them with an opportunity of interactions on safety related topics to achieve 'ZERO HARM'. It is important It is also an occasion to audit one's performance through trade tests under different categories of workmen and officials, first aid competitions, understand Safety Management Plan, SOP's for different operations and safe mining practices. Celebration of Safety Week in Mines is an important and very useful approach in promotion and improvement of safety. Health and welfare of persons employed in mines. Fatal accidents occurred in recent past indicated grave concern to occupational health and safety of contractual persons. I would like to empathies proper attention on proper training, skill and supervision to all contractual person working in mines.

I am sure the Organizers of the function would be successful in creating a proper motivation towards safety amongst all the participating mines, in realizing the ultimate goal of 'Zero Harm' in mines.

I extend my good wishes for the success of the Mines Safety Week celebrations and for safe and productive working of the mines.

MSAK is known for its dedicated work in ensuring all safety in mining industry. MSAK under guidance of DGMS is conducting various technical papers, events on mining safety and National Seminars. MSAK is making dedicated efforts to spread safety awareness among the mining industry, which will go a long way in developing the overall work culture and safety standards in the mining industry.

MSAK is committed to continue its efforts to reach its ultimate object of **ZERO HARM**.

MSAK organized National Conference on "Future Trends in Mining: on 25th & 26th May 2018 with great enthusiasm and spirit as part of the Golden Jubilee Year.

I am thankful to the DGMS officials of Bengaluru and Ballari for their valuable guidance and support for in conducting the events organized by MSAK in all such occasions.

I also thank all the Office Bearers, Executive Committee members, Zonal Secretaries, Souvenir Committee of MSAK for their efforts to make this year Safety week celebrations and printing of Souvenir with special attention to prevent of Silicosis.

I wish the mining fraternity and also convey my greetings & best wishes for the New Year 2019 to one and all.

EDITORIAL

Mines Safety Association Karnataka is celebrating annual Mines Safety Week's from the past 49 years in the state. The Safety Week's in the state were celebrated by dividing the demography of the state into different zones at different points of time based on size, nature of working, extent of mechanisation, etc.. The year 2018 being the Golden Jubilee Year of its existence MSAK is celebrating the Mines Safety Observance and Silicosis Awareness Week. The mines / quarries operating in the State of Karnataka, Kurnool and Ananthpur districts of Andhra Pradesh and Krishnagiri district of Tamilnadu have participated in the Mines Safety Observance & Silicosis Awareness Week-2018 spread over a period of one month in four zones of MSAK.

With co-ordination and efforts of the DGMS offices of Bengaluru and Ballari Regions, there is an increase in number of minor mineral quarries participating in the Mines Safety Observance and Silicosis Awareness Week-2018, which is need of the hour to propagate health and safety awareness of miners employed. The Minor mineral quarries are mostly unorganised and also employees / workmen exposure to risks is more often than counterparts in the organised sector. It is also need of the hour to train the workmen employed in these quarries, who are probably not trained in the safety aspects of open cast mines.

On the occasion of State Level function of Mines Safety Observance and Silicosis Awareness Week - 2018, Souvenir containing Technical papers highlighting the best practices being followed by different mines in the areas of safety & sustainable mining and also the Statutory requirements needed to be followed by the industry is being brought out. We thank all the authors of technical papers and their organisations and the advertisers for their support.

I personally thank all the Office Bearers, Executive Committee members, Zonal Secretaries, Souvenir Committee members of MSAK for their contributions in Observing Mines Safety Week – 2018 and bringing out this Beautiful Souvenir.

MSAK sincerely thank the DGMS Officers of Bengaluru and Ballari Regions for their immense contribution in conducting MSW, designing and bringing out this Souvenir.

Wish you all a Happy, Safe & Healthy New Year – 2019.

As per RULE-15, only the Members are to appoint an external auditor to audit the financial statements of the Association and to hold office from the conclusion of this AGM to the conclusion of next AGM. Shri. Dhananjaya G Reddy, Hon. Secretary informed the gathering that M/s. Satyam & Dutta, Chartered Accountants, Hosapete our retiring auditor are eligible for re-appointment and have agreed to carry out the audit of financial statements and to remain as auditor for the aforesaid period. Hence the members has unanimously agreed to re-appoint M/s. Satyam & Dutta, Chartered Accountants, Hosapete to carry out the functions as auditors of MSAK at remuneration to be fixed by the Executive Committee.

7. Collection of GST

Hon. Secretary briefed the gathering about the implications of GST on the association. Requested all the zonal secretaries to submit the monthly report of sales and purchases of the respective zones in the format circulated every month without fail to file the monthly returns of that particular month. Informed the zonal secretaries to collect GST at 18% on the annual subscription and sent the GST amount in the form of Cheque/DD to the MSAK headquarters along with the name, GST number, address, contact number, etc, of the payee within 5th of subsequent month. Invoices shall be raised at the headquarters and sent to the respective company / organization marking a copy to the respective zonal secretary. Whenever the amount is collected by MSAK towards Sponsorship the GST part shall be paid by the respective company/organization in Reverse Charge Mechanism (RCM), MSAK need not collect the GST. He also proposed that the zones may consider having one person as secretary for that zone at least for a period of two to three years, like in the case of zone-1 and zone-2, so that it will be easy for them to comply with the GST formalities regularly. The DMS, Ballari, suggested that one person apart from the zonal Secretary may be nominated to comply with the GST norms. The Zone-4 representatives said that they will continue with the rotation of the secretary post every year but will comply with the GST norms regularly without fail. Zone-3 representatives said that they will consider the option of having one person responsible for complying with GST norms.

The Chairman informed that to keep the permanent(or for period of 3 years) Zonal secretary/Joint secretary. However this requires change in the the bye laws of the association. However, if the office bearers for year 2018-19 are elected, there need not be any change. However, chairman wants to cultivate discipline to keep the accounts as per GST norms and send the returns well in time.

8. ANY OTHER MATTER WITH PERMISSION OF THE CHAIR MSAK Web Site :

The DMS, Ballari, said that MSAK is a reputed body, but does not have a website of its own and suggested that we must have website. The Chairman informed that earlier we had a website but people were not visiting it regularly and hence maintenance of it was discontinued, however now we will have our website.

Allotment of Land for MSAK Activities:

Dr. Meda Venkataiah, Chairman has briefed the conduct of AGM and the funds position of the association and proposed that the amount may be spent for acquiring some assets for the association instead of keeping it in the bank; particularly some land for constructing the association building in Hosapete. Sri Krishna Reddy of M/s. Vedanta, proposed that we may approach the DC of Ballari to allot some money from the KMERC funds for MSAK office building. It was also discussed that the amount may be spent to construct another floor at GVTC building,

Kariganuru for MSAK usage. It was discussed and opinioned that the MSAK funds may be spent to acquire some land preferably in Hosapete for construction of own building.

The DMS, Ballari, suggested that dust survey of different mines of MSAK shall be carried out regularly. The medical examination of workmen exposed to respirable dust particularly in the un-organized sector should be given priority. He also requested MSAK to extend technical support to the GVTC, Gutti; Chairman agreed for that.

The DMS, Bengaluru, informed that Mining and Agriculture are the two primary professions which will exist forever. He emphasized the need of strengthening the positions of Blaster and Mine Mate which are more important as far as safety is concerned and advised all the member mines to encourage the supervisors working in the mine to take up the Blaster and Mine Mate examinations. He informed that the draft MMR amendment is in the public domain and advised the mining community to go through the same and send the feedback or suggestions to the ministry within the time frame. He also suggested having first aid training to all the workmen employed regularly. He also informed that a new GVTC shall be started at Hosur shortly and advised MSAK to help them technically. He also emphasized the need of website for MSAK and suggested to have interaction with other similar associations present elsewhere in the country.

The Chairman agreed to help the Hosur GVTC, technically and also agreed to help the supervisors for taking up Blaster and Mine Mate examinations. Also informed that MSAK will continue with the cash prize for state level trade test winners.

Chairman also briefed about the National Seminar conducted in the month of May 2018 and suggested that MSAK may organize one International Seminar in the year 2020 with participation of reputed authors from different countries.

The meeting also appreciated and congratulated all the organizers, authors, member mines and all others who have contributed directly and indirectly to their efforts to make the MSAK Golden Jubilee Celebrations / National Conference on "Future Trends in the Mining" at J.N.Tata Auditorium, Indian Institute of Science, Bengaluru conducted by MSAK on 25th & 26th May, 2018 a grand success.

The meeting concluded with vote of thanks proposed by Shri Kamlesh V. Patel, Jt. Secretary.
